

Jennifer Mawdsley

Argonne National Laboratory
9700 South Cass Avenue, Bldg. 205
Argonne, IL 60439
phone: 630/252-4540, fax: 630/252-4452
e-mail: mawdsley@cmt.anl.gov

Professional Experience

- Development of catalyst materials, processing methods, and monolithic substrates for fuel reforming for fuel cell systems
- Characterization of catalyst materials and monolithic substrates for fuel reforming for fuel cell systems including x-ray diffraction, SEM, and EDX

Professional Society Activities

- Member, American Ceramic Society

Education

PhD, Materials Science and Engineering, Northwestern University
MS, Materials Science and Engineering, The University of Michigan—Ann Arbor
BS, Ceramic Engineering, University of Illinois at Urbana—Champaign
